

a place to call home:

Warmer Homes

Could you be eligible for free central heating through our Warm Homes Fund?

Better Homes
Wakefield

wakefieldcouncil
working for you

If you do not have any gas central heating in your home you may qualify for our Warm Homes Fund!

What is it and what's available?

You could be eligible for a full gas central heating system with an A rated boiler completely free of charge!

All of the work would be done for you by the Council's approved contractors through the Better Homes Yorkshire scheme.

If you don't have a gas supply to your home we can also arrange gas connections free of charge, subject to eligibility, as long as your home is close to the gas main.

Who qualifies?

You may qualify if you live in the Wakefield district and meet the following criteria:

- Own your home
- Currently use one of the following as your main heating system
 - gas fires
 - electric storage heaters
 - coal fires
- Have unheated rooms in your home

The Warm Homes Fund is available for a limited time and will be given to those who apply first, so we urge you to apply today!
