

This profile contains a selection of key statistics taken from the 2001 Census for the Ryhill and Havercroft area. The 2001 Census was taken on the 29th April 2001 and the subsequent results provide the most comprehensive survey of the UK population. Detailed data is available down to small area levels, the smallest being census output areas which contain around 125 households. The Ryhill and Havercroft area lies within the Hemsworth and Crofton & Ackworth electoral wards and the boundaries used to create this profile are illustrated in the adjoining map. Please note that the statistics in this profile are based on a non-standard geographical area and are derived by amalgamating Census Output Areas.

The following data tables compare the neighbourhood profile of Ryhill and Havercroft to that of the Wakefield District and national averages. Percentages are calculated on a base figure for each category or sub-category, which appears in italic type at the top of each appropriate section. Please note that in some cases the data shown in this summary may have been rounded and figures shown may differ slightly from those published elsewhere. Due to rounding of percentages, the addition of categories may not sum to exactly 100 per cent in all cases. It should also be noted that in some cases, different tables might show different counts for the same population, due to disclosure protection measures used to prevent the inadvertent disclosure of information about identifiable individuals. Figures quoted should therefore be used for guidance only.

A series of area profiles has been prepared by the Council's spatial policy group, for further information regarding availability, please contact the spatial policy group or visit www.wakefield.org.uk/census2001. Further profiles and data can be found at the National Statistics website at www.statistic.gov.uk.

CENSUS 2001 KEY STATISTICS
