

Understanding Autism

Autism is a spectrum condition that affects how a person communicates with others and how they interpret the world around them. There are around 700,000 people in the UK with autism – more than 1 in every 100. Having a clear understanding of the misconceptions, diagnoses and support surrounding autism are just some of the essential skills needed when working in mental health.

Benefits

- Achieve a nationally recognised Level 2 qualification
- Improve your understanding of theories relating to autism
- Further your personal and professional development
- Ensure you understand what is meant by autism and how it is diagnosed
