

Certificate in Falls Prevention Awareness

Learn how to assess, monitor and review an individual's risk of falling. Look at a range of interventions that can reduce the risk of falls and the specialist support available.

Consider how to reduce the impact and minimise harm in the event of a fall and gain an understanding of the roles and responsibilities of staff in falls situations.

Benefits

- Achieve a nationally recognised Level 2 qualification
- Evidence your competency to employers
- Further your personal and professional development
- Learn at a time that suits you without the need to attend college
- Understand the importance of awareness of falls prevention and an understanding of legislation and guidance relating to falls

What you will learn

- Factors that increase the likelihood of falls and how they can be caused by personal and environmental factors
- How to reduce the risk of falls
- The content of an environmental risk assessment
- Local and national sources of support and information available

Eligibility Criteria

- Aged 19+ (born before 01/09/1999)
- Lived in the EU for 3 years

Available
fully funded
