Start in the car park at the Stanley Ferry Pub. Walk around the pub to the bottom car park and enter the canal towpath via the path in the bottom right corner.

Turn right and walk to the metal bridge. Cross the metal footbridge (Ramsden's Bridge) – and turn right.

Continue on the canal side as far as Harrison's Bridge.

Cross the bridge and turn right immediately in front of the metal barrier and walk diagonally across the field (gentle climb) to the top of Park Hill where there is a picnic area.

Walk down the track bearing left at the fork passing a high electricity pylon on your right.

At the next pylon bear left and follow the dirt road to the lake. Bear right and follow the track between two lakes.

At the junction of Balk Avenue turn right onto a narrow green path alongside the lake. Keep right at the fork. This passes through a lightly wooded area and emerges onto the canal tow path at Ramsden's Bridge.

Turn left and walk back along the canal towpath back to the start point.

Points of Interest

- Stanley Ferry Marina – boats in plenty
- Aire & Calder Canal with its bridges
- Park Hill – reclaimed coal tip, site of Park Hill Colliery
- The Stanley Ferry Pub – food, refreshments, toilets and childrens' play area

It's good for your health

Regular physical activity dramatically cuts the risk of developing heart disease, diabetes, obesity and some cancers. It also reduces cholesterol, lowers high blood pressure and is good for our sense of wellbeing.

- brisk walking burns as many calories as jogging over the same distance
- it strengthens muscles, bones and joints
- walking improves your mood and boosts confidence
- it helps maintain flexibility and co-ordination as you get older.

Try to walk for 30 minutes every day. Remember it can:

- Make you feel good
- Give you more energy
- Help you sleep better
- Help you reduce stress
- Keep your heart strong
- Reduce blood pressure
- Help manage your weight
- Improve your life expectancy

Wakefield Council's Health Improvement Team is working to encourage people to carry out more of their journeys on foot or by cycle to improve the environment and their health.

Fit walking into your daily routine

Ditch the car and walk instead. For short trips to the shops, work or school, walking is an ideal way to get active.

Go for an evening stroll. You could make walking a family affair, starting a good habit for all the family.

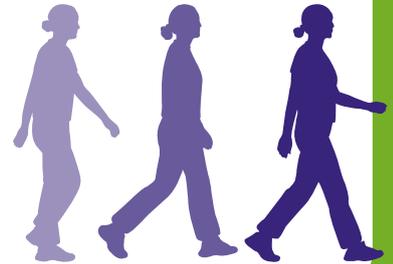

Combine walking with other modes of transport. If a journey is too long, why not combine it with another mode of transport? You could walk with the kids to school and get the bus back, or take the bus to work, jump off a stop early and walk the rest of the way.

Make a plan and set yourself goals. Start by walking 10 minutes a day, and build yourself up. Ease yourself in gently, get used to walking a certain distance and then add to it.

Find a walking buddy. If you commit to meet a friend you are more likely to stick to it. Alternatively, a local walking group (advertised on www.walkingforhealth.org.uk) might suit you better.

Use a pedometer or other wearable fitness device or app to keep track of your progress. It's satisfying to see how many steps you've taken, the distance you've covered and how many calories you've burned.

During your lunch break, go for a walk instead of just sitting at your desk.

Walking is one of the easiest ways to be physically active – it doesn't even have to feel like exercise. All you need is a comfy pair of shoes, and once you get moving you'll feel fitter, healthier and happier.

Walking doesn't cost a penny, and fitting it into your daily routine is easy when you follow our top tips.

Walk for fun

Walking enables you to explore your local area on foot and get to know your community. Why not set yourself a challenge to walk in all your local parks and walking paths?

It's great for our planet

Walking doesn't leave a carbon footprint, just your own. And if we all swapped one weekly drive for walking, traffic would reduce by at least 10%. Imagine that.

Safer and quieter streets for children to play on and for people to socialise in.
