

# Walk 10

## Stanley

(The Stanley Ferry Pub to Stanley Marsh Nature Reserve)

Roman Station Farm

**Duration** Allow 60 minutes  
**Distance** 3.8 km / 2.4 miles  
**Terrain** An easy, level walk, mainly on good all-weather footpaths together with some roadside pavements. Paths in the Nature Reserve may become slippery in wet weather.

**A** Start in the car park at the Stanley Ferry Pub. Walk out of the car park and cross the main road, the path begins immediately in front of you.

**B** Walk down the narrow well-defined track to Smalley Bight Farm. Turn right at the sign post and pass through a wooden kissing gate.

**C** Keep to the broad track through the farm yard and to the left of the Bungalow. Continue to where the track merges but walk straight ahead through a wooden gate on a green path as far as the Waste Water Treatment Plant.

**D** Turn left and walk on a tarmac track to the main Aberford Road. Cross the road and turn left.

**E** After about 100m turn right and walk onto Oak Avenue, continue onto Lime Pit Lane.

**F** Turn left, walk past the Café and cross the road. Locate the entrance to the Nature Reserve on your right.

**G** Enter the gate, walk 50m and turn right. Follow the path the whole way around the Reserve.

**H** Leave the Reserve, turn right and cross over Aberford Road. Take the path straight ahead and walk back to the Stanley Ferry Pub car park.

**Points of Interest**

- The Stanley Marsh Nature Reserve is small but contains a wide variety of habitats and can be enjoyed in any season of the year.
- The Stanley Ferry Pub – food, refreshments, toilets and children’s play area

Start **A** Finish

## It's good for your health

Regular physical activity dramatically cuts the risk of developing heart disease, diabetes, obesity and some cancers. It also reduces cholesterol, lowers high blood pressure and is good for our sense of wellbeing.

- brisk walking burns as many calories as jogging over the same distance
- it strengthens muscles, bones and joints
- walking improves your mood and boosts confidence
- it helps maintain flexibility and co-ordination as you get older.

## Try to walk for 30 minutes every day. Remember it can:

- Make you feel good
- Give you more energy
- Help you sleep better
- Help you reduce stress
- Keep your heart strong
- Reduce blood pressure
- Help manage your weight
- Improve your life expectancy

Wakefield Council's Health Improvement Team is working to encourage people to carry out more of their journeys on foot or by cycle to improve the environment and their health.

## Fit walking into your daily routine

Ditch the car and walk instead. For short trips to the shops, work or school, walking is an ideal way to get active.

Go for an evening stroll. You could make walking a family affair, starting a good habit for all the family.

Combine walking with other modes of transport. If a journey is too long, why not combine it with another mode of transport? You could walk with the kids to school and get the bus back, or take the bus to work, jump off a stop early and walk the rest of the way.

Make a plan and set yourself goals. Start by walking 10 minutes a day, and build yourself up. Ease yourself in gently, get used to walking a certain distance and then add to it.

Find a walking buddy. If you commit to meet a friend you are more likely to stick to it. Alternatively, a local walking group (advertised on [www.walkingforhealth.org.uk](http://www.walkingforhealth.org.uk)) might suit you better.

Use a pedometer or other wearable fitness device or app to keep track of your progress. It's satisfying to see how many steps you've taken, the distance you've covered and how many calories you've burned.

During your lunch break, go for a walk instead of just sitting at your desk.

Walking is one of the easiest ways to be physically active – it doesn't even have to feel like exercise. All you need is a comfy pair of shoes, and once you get moving you'll feel fitter, healthier and happier.

Walking doesn't cost a penny, and fitting it into your daily routine is easy when you follow our top tips.

## Walk for fun

Walking enables you to explore your local area on foot and get to know your community. Why not set yourself a challenge to walk in all your local parks and walking paths?

## It's great for our planet

Walking doesn't leave a carbon footprint, just your own. And if we all swapped one weekly drive for walking, traffic would reduce by at least 10%. Imagine that.

Safer and quieter streets for children to play on and for people to socialise in.
